SOME REAL LIFE EXAMPLES NOW

FLOATING BUTTON MENU

```pug
<template lang='pug'>
  .floating-menu__wrapper
    transition(name="fade")
      .floating-menu__overlay(
        v-if="menuIsVisible"
        @click='toggleMenu'
      )
    button.floating-menu__button(
      @click='toggleMenu'
    )
    a.floating-menu__child(
      v-for='(item, index) in childButtons'
      v-bind:key='index'
      :href='item.link'
      :style='calculateButtonStyle(index)'
    )
      img.floating-menu__child-img(:src='item.icon')
</template>
```
